Biography

Kieron is an experienced and highly skilled camera department team member. Many years' experience composing images have come to fruition since establishing Manned Camera Limited in late 2014 and joining the film industry. He is capable, professional and hard working, and happy to fulfil any role in the camera department, be it Camera Operator or 1st Assistant Camera (focus puller). Through Manned Camera Limited, Kieron's bespoke camera rental company, he can provide a complete production service, including comprehensive Arri Amira or Alexa Mini based shooting kit, grip, and lighting hire, all packaged in a customised 4WD camera van with on board power and camera prep and maintenance facilities. With a background in fine art sculpture, through which he developed considerable technical skills, and then a successful career in the City, Kieron is a calm, capable, and dependable addition to the crew of any film set. In 2017 Kieron became a member of the BAFTA Crew professional development programme.

In addition to Manned Camera's inventory (see below), Kieron is also able to provide a complete camera department service, sourcing any equipment required through his cross-hire partnerships with other rental houses. Kieron is particularly keen to work on drama productions of all kinds, and when accompanying his equipment is happy to consider offering significant discounts on equipment hire costs to feature and short film productions.

New for 2018 - 600 Sq. Ft. camera testing and preparation premises in London SE4
